

RELIANT

For 1985, America's favorite family transportation, Plymouth Reliant, has added clean, new styling to its state-of-the-art front-wheel drive, six-passenger seating and great value.

Reliant comes in three price classes and eight different models, to suit every taste and budget: the luxury Reliant LE two-door and four-door, Reliant SE two-door and four-door, base Reliant two-door and four-door, plus Reliant LE wagon and Reliant SE wagon.

Reliant LE lives up to its luxury image with standard interior comforts such as special sound insulation, deluxe intermittent windshield wipers, cloth-and-vinyl front bench seat with center armrest, cloth door trim panels with woodtone applique, and a passenger side visor vanity mirror with map/mirror light.

Reliant LE four-door interior, shown in Medium / Dark Blue.

The clean, understated look of Reliant SE comes from its attractive aerodynamic shape and the classic new grille. The overall effect is beautiful. Reliant SE offers great value at a middle-of-the-road price. For comfort and affordability, try to match the value-packed Reliant SE. (If you can!)

There's also the additional storage and convenience of a full-length console available with optional bucket seats on Reliant LE and SE. It includes a cup and coin holder.

Standard features make the base Plymouth Reliant a value leader. They include front-wheel drive, a 2.2-liter

Reliant LE four-door, shown in Ice Blue Crystal Coat.

Trans-4 engine with electronic ignition and computer combustion control, four-speed manual transaxle with overdrive, and power brakes. There's also rack-and-pinion steering, a front dual-path Iso-Strut suspension and a rear beam axle with trailing arms and track bar, coil springs and shock absorbers. The result is excellent handling, ride and roadability in every Plymouth Reliant.

Chrysler Corporation's human engineering expertise really shows inside the new Plymouth Reliant. Roomy and comfortable, the base Reliant's six-passenger interior has vinyl bench seats and head restraints, full carpeting, front door storage pockets, and an inside hood release.

Reliant's padded instrument panel comes with a new shift indicator light (with manual transaxle only), parking

brake warning light, low oil pressure warning light, trip odometer, and gauges for fuel level, engine coolant temperature and voltage. There's also a generous 15 cubic feet of luggage space in Reliant's big trunk.

Six-passenger comfort and plenty of cargo space await you in the 1985 Plymouth Reliant LE and SE wagons

(34.9 cubic feet of cargo space with rear seat upright, 67.7 cubic feet with rear seat folded down).

Reliant LE wagon offers the additional luxury of standard power steering, attractive bodyside/liftgate woodgrain applique, cloth door trim panels with woodtone applique, and cargo area tonneau cover.

Perfect for vacations, outings or hauling the gang, Reliant wagons combine value and practicality in one efficient package.

Best of all, every Reliant comes with built-in Chrysler quality[†] and the proven protection of Chrysler's Five-Year/50,000-Mile Protection Plan.* The added value and peace of mind of this limited warranty protection make Reliant a worthy transportation investment.
